

THE PENCA FAMILY

I have a B.S. in finance/economics from CSULB and an A.S Degree in business management from Harbor College. I am married with 2 boys. We have a 4y old and a 2yr old. We are a young family.

About Mom & Dad:

We are both self employed. (Mom) I am an independent insurance agent. I work with many different nationalities and cultures. This is one aspect of my career I enjoy very much. I love music, dancing and watching movies. We are a very happy, outgoing family. I love reading and education. I expose my children to many different cultural and multinational events and activities. At home we relax quiet time is very important to my family. We believe our home should be our sanctuary of peace and quiet.

(Dad) is a contractor. He builds new construction, additions and remodels. He loves to build. He is an awesome handyman. He is the most loving, kind person I ever meet. That's why I married him. He is very reserved; he enjoys staying home and watching movies. He is the world's greatest dad. The kids love him and miss him when he's gone. He is a family man with a strong foundation with his faith and family.

(4yr old) loves transformers, fast cars, Sesame Street and loves his grandparents. He goes to a private Christian school (pre-school. He is very well spoken and is learning how to read and

write. At home he is very focus on his studies, he reads (we read) and is learning his numbers. He loves to talk and have very interesting conversations and he enjoys meeting new people.

(2yr old) he is just like his dad. He is the mini builder in the family. It's just too cute when you see him with his dad. Every morning he tells me he wants to go working with daddy. He loves fixing the house and making a mess when he eats. He is learning how to pronounce long words, and is constantly expanding his vocabulary.

We live by El Camino College, walking distance. We are close to shopping centers a great place everything you need is in walking distance. We are about 30min driving time from downtown L.A. Chinatown and Beverly hills. We are in a very safe neighborhood. We have 3 policemen that live in our street. We have a remodeled rustic/Spanish style house. Everything is new including a new bathroom, windows, paint, doors, etc...We have a spare room, completely furnished, wireless, cable and 2 or 3 meals a day.

We are looking to open our home to an honest, loving, polite, respectful, good hearted person. Who loves life and wants to live life to its fullest.

Best Regards
and
Good Luck
