

The Smith Family's Profile:

Our family is a lovely two some of my daughter who is 25 years and her mom who is 48 years.

We have a beautiful mother/daughter relationship wherein we respect each other's boundaries and enjoy an easy, open and friendly relationship.

We have travelled a lot and lived all over the world. I was born in the United Kingdom, grew up in the British Caribbean and then returned to live and work in London.

My daughter was born in Florida, grew up in the Caribbean, and attended boarding school in Massachusetts and college in upstate New York. After interning in Los Angeles, she decided to make California her home and now works for a major record label.

I am currently in between jobs as a result of the economic downturn and have embraced the opportunity for a new career start. I am presently attending classes for my realtor's license.

We have a 1,900 sq. ft home with 4 bedrooms. The home was built in 2005 and it is lovely, spacious, airy, comfortable and homey. It has a lovely back patio for relaxation. We absolutely fell in love with our community which is literally a stone's throw away from Six Flags Magic Mountain. During the summer, we can see the lights and fireworks from our upstairs bedroom. Our community boasts beautiful paseos for walking and you will always see joggers and families out for a stroll. We are extremely proud that we have a well manicured environment with easy access to public high schools, community colleges, supermarkets, the movie theatre, mall and affordable restaurants.

For fun, our family enjoys movie nights where on the week-ends we will watch a movie and enjoy pop corn. We also enjoy going out to the movie theatre. We delight in window shopping and will visit the mall on week-ends. Additionally, during the summer we will go the beach, visit the Santa Monica pier, stroll along the Venice boardwalk, visit the Grove/Farmers Market and people watch while taking in a free outdoor concert.

We believe in the attainment of a solid, rounded education as we think this lays a solid foundation and helps to cultivate a good work ethos. We recognize that part of the fun of visiting a new country is to become immersed in its culture and to broaden our outlook, experiences and horizon. We also know that visiting a new country can be both exciting and a little daunting and that a wholesome, positive, and caring family can make a world of difference.
